

## AP Computer Science Summer Reading List:

Dear Future AP Student,

Welcome to AP Computer Science. I am glad you have chosen to take this course. In order to prepare for AP Computer Science, please complete the following:

- Go to the following website and complete the introductory tutorial about Java called “The Java Technology Phenomenon.” Just read through the material under the first bullet point: “About the Java Technology.”

<http://docs.oracle.com/javase/tutorial/getStarted/intro/index.html>

- Go to the College Board website under AP courses and download the “**AP Computer Science Course Description.pdf**”. You will need to click the link under the blue section called Exam Resources. Read the course description so you understand what you are expected to do this year in APCS.
