

Summer Reading for AP Literature:

Required: John Steinbeck's *The Grapes of Wrath*

Not Required (Extra Credit): Emily Brontë's *Wuthering Heights*

There will be an objective test over *Grapes* during the first week of school, taken by everyone.

If you choose to add *Wuthering Heights*, your knowledge of the work will provide extra latitude for essays throughout the year, but you will also take an objective test over it within the first few days of school. This test will determine the magnitude of a bonus to your test average at the end of the first six weeks. This is also the novel for UIL Literary Criticism this year... and I am looking for a few new team members.
